# Core Capabilities

## Environmental Solutions for Healthcare Facilities

Delivering a safe and sanitary environment is critical in healthcare facilities. Allied Universal provides tailored environmental services for hospitals, clinics, and long-term care settings, focusing on patient areas, treatment rooms, lobbies, restrooms, and support spaces. Our environmental services are designed to maintain a hygienic, welcoming environment, smooth daily operations, and support staff in delivering safe, efficient patient care.

## Quick Issue Resolution Single Point of Contact

In the dynamic environment of healthcare facilities, quick issue resolution is crucial. Our dedicated Client Relations Executive and Healthcare Project Manager provide swift, effective solutions to minimize disruptions and support safe, efficient patient care. Leadership is equipped with real-time data, enabling informed, efficient operations.

## Performance Management

Our performance management approach uses a cloud-based inspection and scheduling system that captures your facility's unique requirements and verifies service delivery in real time. Powered by HELIAUS® Clean, data-driven insights identify high-traffic and underutilized areas, allowing cleaning schedules to be optimized for efficiency and consistency. This demand-based intelligent cleaning process reduces disruptions, controls costs, and provides dependable, high-quality results while maintaining clean, productive environments.

## Ongoing Training

We help ensure low staff turnover and a well-executed cleanliness program through comprehensive training and consistent recognition initiatives. Our teams are well-versed in the latest equipment and cleaning procedures, ensuring adherence to sector-specific standards and requirements.

## Safety and Compliance

Safety is embedded in every aspect of our operations through comprehensive training that promotes a strong culture of health, well-being, and physical safety. Our teams are prepared to respond confidently to any situation while consistently following established safety protocols. We maintain full compliance with CDC guidelines, OSHA standards, EPA requirements, local building and fire codes, and eco-friendly practices, and we are CIMS-GB Certified — providing safe, responsible, and reliable delivery service.

## Cleaning Innovations

We bridge traditional facility services with the advanced needs of modern portfolios by integrating autonomous robotics, IoT technology, and sustainable chemical engineering. These innovations deliver data-verified results, improved efficiency, enhanced safety, and measurable cost savings. From autonomous floor cleaning and demand-based service delivery to secure asset tracking and eco-friendly on-site chemical generation, our approach provides long-term value across diverse facilities.
